## PREFATORY NOTE

---

This volume contains the Proceedings of the President and Council of Fort St. George for the year 1746, comprised in the seventy-sixth volume of the series "Diary and Consultation Books".

The manuscript volume has been mended and is in a fair state of preservation. The India Office had the kindness to supply typescripts for the gaps noticed at the end of the volume.

This volume stops with June 16, 1746, and the next volume in the series begins with November 11, 1749. This was due to the fact that Madras was in the hands of the French during the period and the seat of Government was at Fort St. David. The Fort St. David Consultations of this period therefore form the continuation of the series.

## —FORT ST. GEORGE, JANUARY 1745-46—

TO THE HONOURABLE NICHOLAS MORSE ESQ<sup>u</sup>.PRESIDENT AND GOVERNOUR & C<sup>i</sup>. COUNCIL OF FORT S<sup>t</sup>. GEORGE.

HONBLE SIR &amp; SIRS

Conformable to your appointment by notice from your Secretary of this day's date we have been on board the Honourable Company's Ship Kent attended by the Carpenters of Ship Lincoln and Royal George & on Enquiry find as follows.

Cap<sup>t</sup>. Robson, his Chief, second Mate and Carpenters, Reports to Us that soon after they set out from Gravesend the said Ship made water at the rate of an Inch an hour, on which account they went into Hammose in hopes to stop the Leak, & lightned the Ship for that purpose but could not find it out there; And that on her passage outward bound she continued to make water at that rate in fair weather, & when they met bad weather the Leak increas'd, so as to oblige them to keep one hand Pump constantly going and sometimes both; They all agree in opinion that the Leak is too far under water to be come at in a Road.

As they have at all opportunities endeavoured to discover from whence the Leak proceeds & cannot account farther for it And as we can have no other information or direction where to search the Ship we can only give our opinions on the strength of this Information of which the abovementioned Persons, declare they are ready to make oath.

We therefore unanimously agree that it may be unsafe for her to proceed to Europe without a farther examination in a Port proper for that Purpose.

And whereas we the said President & Council being informed by common Report as well as by Letter under your hand dated the 31 : of the said December, that your Ship was leaky and not in a condition to proceed on the said Voyage did thereupon the same day direct Cap<sup>t</sup>. George Westcott, John Blake, Thomas Feild & David Rannie attended by the Carpenters of the Europe Ships, to go on board to survey your said Ship and report to us in writing, whether she was in a proper condition to proceed for Europe or not, which four Commanders above named by writing under their hands dated also the said 31 : Dec<sup>r</sup>. did, on the representations made to them by Yourself and Officers concerning the said Leak, unanimously agree that it might be unsafe for the said Ship to proceed to Europe without farther examination in a port proper for that Purpose.

And Whereas it is thereby manifest that your Ship is not fit to proceed in due season on the Voyage we ordered you to prepare her for, We therefore the President & Council aforesaid do hereby for and in behalf of the United Company of Merchants of England trading to the East Indies protest against you Cap<sup>t</sup>. William Robson Commander of the said Ship Kent, as also against the Charterparty Men & Owners of the said Ship for all Losses and Damages by Demorage or otherwise which the said United Company may now or at any time hereafter, sustain, by the inability of the said

Last Consultation read and signed.

General Letters read Viz<sup>t</sup>.

N<sup>o</sup>. 6 & 7 both from the Deputy Governour and Council of Fort St. David; The first dated the 10: instant acknowledging the receipt of the money sent them the 4<sup>th</sup>. The other dated the 11<sup>th</sup>. promising their best endeavours towards the Ship's early dispatch, though they have been hindred by ther ains in curing their Cloths, inclosing Monthly Papers & representing that some additional Buildings are wanting to their sorting place & to the Tevenapatam and Bandipollam Washing Places.

N<sup>o</sup>. 8 from the Chief & Council of Anjengo of the 20<sup>th</sup>. Nov<sup>r</sup>. advising of the Princess Augusta's arrival there and that they should discharge the draught made on them by the Commander of her from Colombo for Five hundred 500 Pagodas taken up by him at that place and referring to the account they suppose we should receive from him of the State of the Ship though none is yet come to hand.

The President hereupon told the Board, That it had been mentioned from St. David and strongly rumoured in Town that some English Patamars from Anjengo had been stopped and detained by the French at Caracal, but that he thought it not

## —FORT ST. GEORGE, JANUARY 1745-46—

proper to take any notice of the report without further Confirmation which, if true, he judged it could not long want, nor was he out in his Conjecture, for, with the above Letter from Anjengo he received one from M<sup>r</sup>. Dupleix confessing that the Chief of Caracal had taken that step without his Knowledge or Approval expressing his dislike of such a practice and assuring him of his having reprov'd the said Chief for it And that he had ordered the discharge of the Peons and the Letters (which were forwarded by M<sup>r</sup>. Dupleix to the President) to be sent unopen'd Though such a proceeding begun by the French would sufficiently warrant our following the Example, yet as M<sup>r</sup>. Dupleix has thought proper to apologize for it in such a manner we think we ought to suspend any particular resentment in this Instance.

Having reason to believe the Coast to the Northward is at present clear of any Enemies it's agreed to send Six thousand 6000 Madrass Pagodas on the Vencataish a Country Ship that will sail in few days to Vizagapatam; As a Supply for that place & Ingeram to be equally divided.

Edward Harris Paymaster reads that account for last month Viz<sup>t</sup>.

Ballance due to him three hundred twenty Pagodas two Fanams & twenty two Cash 320. 2. 22 which is carried forward And three thousand 3000 Pagodas advanced him towards the Charges of the month.

The Particulars of the Extraordinary Expence in his account are entered hereafter.

The Import Warehousekeeper pays in Five thousand 5000 Pagodas on account of Silver sold.

Ravenapah the Renter of the Company's Garden pays in One hundred twenty five 125 Pagodas for six month's rent due the 1 : May last.

The Farmer of the Company's Buttecas complaining that they are in want of Repair, Ordered that the Paymaster have it set about.

The Letters from Maddepollam unreply'd to being called for and again read, in order to forming an answer to them, it's agreed to permit M<sup>r</sup>. Hallyburton at his request to quit his Station there, leaving M<sup>r</sup>. Banks in charge of the Factory & the Honble Company's Effects and for the reasons he gives, to write on to the Books, the

Tent, small Guns & Bar Boat; But as it's agreed to suspend till the Arrival of Mess<sup>rs</sup>. Saunders & Hallyburton our determination about continuing or withdrawing that Settlement on account of the oppressions of the Country Government and other Matters so it's agreed to direct him not to submit to paying Customs on the Timbers forced on him, lest his Compliance should encrease their Exactions.

The more than usual Rains that have fallen this year on this Coast having put an entire Stop to washing the Cloths both here and at St. David's from the first setting in of the Monsoon in October to the middle of last month & the frequent Showers and Cloudy Weather since having greatly impeded the Congeeing and Curing them insomuch that we cannot possibly expect to have so many Bales whitened as the Admiral Vernon and Lincoln will want in time for the early dispatch the President acquaints Us they must have And the Surplus Peire we had in Store to put on board them being not above Eighty Tons between the two Ships; There seems to remain no other means of supplying the Tonnage that may be wanted but with Brown Cloth which on a retrospection into the Letters and Orders from England since the year 1713 we cannot find is forbid in a Case of the like Necessity we are now under; Its therefore agreed that the Warehousekeeper have Two hundred 200 Bales of Brown Cloth sorted and packed in readiness for the Lincoln if we are obliged to make use of them and to send directions to the Gentlemen at St. David's to do the same for the Admiral Vernon.

The Accountant reads the Journal Parcels for the Month of November.

The President acquaints the Board that he has frequently in the two last months called upon Telesinga Chitty and Tomby Chitty for the Payment of their Annual Five thousand 5000 Pagodas, but can obtain nothing certain from them about it, Tomby Chitty pleading his incapacity & Telesinga the hardship it would lay him under by obliging him to pay it when he has not received the proportion of Woolen Goods he expected at his engaging in the Business, He the President had therefore directed them to attend here to day for the resolution of the Board upon the matter.

Tomby Chitty and his Partners as well as Telesinga Chitty being then called in and reminded of the Engagement they were under to pay off Annually Five thousand 5000 Pagodas in discharge of their Ballance and that their not complying with their promise before these Ships sail may not only draw the Honourable Company's Censure on this Board but make them think their Indulgence to them but ill required, Tomby Chitty & his Partners urged as they had done to the President their present incapacity, but through the Assistance of Telesinga Chitty and seemed to leave it to him to make us a further Answer Telesinga then said he hoped he should be thought to have performed his part in bringing in a good Number of Bales and he understands it to be a condition on the part of the Board that he should have a proportion of the Broad Cloth delivered him That he had advanced much of his own Money to make up the last payment and that he has done the utmost in his power to save a Brother and Family from utter Ruin he hoped he might expect so much favour from the Board as that they would not insist on the immediate payment of that Sum especially when we consider that from the late arrival of the Ships he has received none of the Broad Cloth and that he is spending his Time and Fortune in the Company's service purely with a View to extricate his Brother and obtain some favour towards him and therefore if we could not indulge him with a longer time to pay the whole Sum, that we would permit him to pay in Two thousand of it now.

After some longer time spent in arguing with him he at length agreed to lay down Three Thousand 3000 Pagodas before the departure of the Ships And One thousand 1000 more before September in behalf of his Brother, on our promising him A Proportion of the Broad Cloth And his engaging to continue in the Business the next year.

The President delivers to the Board in it's Translate now read, a Letter he has just received from the Nabob forbidding our coining Rupees and Gold Mohurs with the Arcot Stamp, which takes it's rise as he apprehends from the Movements of the Country Mints being considerably lessened since the Commencement of the War with

France, which causing the Mocha, Judda and Bussorah Ships to go elsewhere to coin their Treasure and that little or none comes from Manilha deprives the Mints of the Province of the Benefit they formerly reaped from those Importations and this it's probable has put the People about the Nabob on representing the Business done in our Mint as a Loss to him. The President adds that on the Arrival of our Ships there being no time to be lost in coining the Money for the Bay in our Mint the Shroffs appearing backward to purchase it to throw into the Country Mints he was apprehensive the Moors might take some Umbrage upon a belief that we were about to coin the whole quantity in our Mint; To prevent which he had instructed Hodjee Addy to assure the Nabob of the contrary that we were only coining what the Company wanted for Bengal and that the rest would come into the Surcar Mints; But the Nabob labouring under an indisposition that will not permit him to attend Business Hodjee Addy had been able to make him only two Visits and those of Ceremony; The President then read the Letter he designed in Answer to the Nabob's with which it is entered hereafter.

Agreed to send Five thousand 5000 Pagodas Overland to St. David's on Friday next.

FROM NABOB ANAWARDEEN CAWN BAHAUDEE

RECEIVED JANUARY 13<sup>TH</sup>. 1745-6.

I had some time ago wrote you not to coin Rupees with the Chop of Arcot in Chinapatam and I do again write you to be cautious & not at all coin Mohurs & Rupees with the Chop of Arcot there & in case you did it would be of disadvantage to you. What can I say more.

TO NABOB ANAWARDEEN CAWN.

I have received your Excellency's Perwana forbidding the coining of Rupees or Gold Mohurs with the Arcot Stamp, as for the former I beg leave to assure your Excellency that what has been put of late into our Mint is for Bengal and is a sort the Company only want and not to be disposed of here & that all the Silver belonging to this place will be sent to your Mints which will be a very considerable quantity and as by this means your Excellency will be a very great gainer, I do not doubt but you will continue to indulge our Company in the Liberty they have for some years enjoy'd which can be of very little Consequence, your People know that all the Silver that comes to Madrass & is sold here except what the Company have occasion for to send away is all put in your Mints and that Madrass has the Happiness of being serviceable to your Excellency in this and many other Respects & therefore may hope for your Excellency's good Will as for Gold Mohurs with the Arcot Stamp they are not coined here.

What can I say more.

He at the same time delivers in as entered hereafter an account of the produce of the Customs in the Town Mint on the Coinage of Gold for the last year compared with the preceeding, whereby there appears that the Customs on Madrass Pagodas for the last year exceeded those of the former year Four hundred thirty five 435 Pagodas and that the Customs on the Current Money fall short nine hundred thirty Pagodas eighteen Fanams and fifty five Cash 930. 18. 55 The Increase on the Madrass Pagodas being owing to a large demand of the Dutch for that species. The Nett decrease of the year being Four hundred ninety five Pagodas eighteen Fanams and fifty five Cash 495. 18. 55 to the great Scarcity of Gold in Town occasioned by the demands for Madrass Pagodas as above and for Gold Mohurs to send to the Bay.

## —FORT ST. GEORGE, JANUARY 1745-46—

The DECREASE in Customs on Goods P<sup>a</sup>. 1627. 27. 9 is considerably less than may be accounted for from the Article of Coral only, which as the Ships London and Princess Mary are yet missing, there falls in that Article P<sup>a</sup>. 2639. 5. 9 short of the year preceeding so that setting aside that Deficiency there will be found a real Increase in the Import of other Goods And had not that unfortunate Accident intervened that befell the Ship Mercury in Bengal River while bound to this Port and richly laden with Raw Silk and Piece Goods expected here, This head would have yielded a still more considerable Increase upon the Year preceeding.

The INCREASE that Appears in the Article of Grain of Pag<sup>a</sup>. 1205. 17. 48 proceeds from from (*sic*) the troubles to the Northward that greatly prevented that Importation the year before, Than from any unusual quantity imported since, The Import of this year being to about 3580 Garce which though considerably exceeding that of the year 1744 is yet about 1230 Garce short of the Import of the year 1743.

The DECREASE in Anchorage of Pag<sup>a</sup>. 75 is chiefly from the late Arrival of the Europe Ships, The Dolphin being the only one arrived till the five under Cap<sup>t</sup>. Carteret's Convoy came in the 11: Dec<sup>r</sup>. which will be brought to Account next month at the time of their departure.

TO THE HONBLE NICHOLAS MORSE Esq<sup>a</sup>.

PRESIDENT & GOVERNOUR &c<sup>r</sup>. COUNCIL OF FORT S<sup>t</sup>. GEORGE.

HONBLE SIR & SIRs

I herewith deliver in to your Honour &c<sup>r</sup>. a State of the Choultry Customs for the years 1744 & 1745 and am sorry that you will see there is so great a decrease in the last as Pag<sup>a</sup>. 1272. 11. 6 though I am confident Your own Observations through the whole Course of it would have prevented your Surprize had it been even more than that. The Goods remaining on hand which had been provided for the Manilha and Pegu Markets and which lay unfinished, were brought in in the year 1744 but in this last year you are sensible there was not the least encouragement to provide more, which has occasioned a difference of above Twenty thousand Pagodas in those Sorts of Goods brought in to the Choultry, The Custom upon this Sum would have been upwards of One thousand Pagodas and in such a general interruption to Trade and from the frequent Troubles in the Country, You will easily imagine the Decrease upon all the other Articles must at least be so much as to make up together the Sum I at first mentioned.

—FORT ST. GEORGE, JANUARY 1745-46—

It gives me a great deal of Concern that I am necessitated thus every Year in a manner so disagreeable to account for my management in my Employ but have the Satisfaction to know that I do the best in it the present Circumstances of Affairs will allow of, and to believe that your Honour &c'. are convinced of it, I am with great Respect

HONBLE SIR & SIRS  
Your most Obed<sup>t</sup>. Humble Servant  
WILLIAM JOHNSON.

WILLIAM MONSON.

TO THE HONOURABLE NICHOLAS MORSE Esq<sup>r</sup>.

PRESIDENT AND GOVERNOR & C<sup>t</sup>. COUNCIL.

HON<sup>ble</sup> SIR & SIRs

I am ordered by the Hon<sup>ble</sup> the Mayor's Court to acquaint your Honour &c<sup>t</sup>. that they acknowledge to have receiv'd by your Secretary your Message of the 4: March last together with the Extract of the Hon<sup>ble</sup> Company's General Letter dated the 21: March 1743 and would have answered the said Message sooner had there not been Vacancies in the Court which they could not fill up till late in December when the time for electing a New Mayor drew near, they being very desirous to have a full Court to consider of an Affair which they thought of great Consequence.

They now desire you to believe that they would gladly concur with you and put into practice any Method proposed by the Hon<sup>ble</sup> Company, but confess themselves not Lawyers and are therefore the more cautious, thinking it too nice a point for them to determine whether they can any way deviate from their former Method, especially as it has not come to their knowledge that any of the Suitors of said Court have ever intimated their dislike of, or uneasiness at the present Security.

They have ordered me to inform your Honour &c<sup>t</sup>. that all Accounts are kept by the Register with the Records of the Court, which Accounts are audited by the Body Annually upon the Election of a New Mayor, and that the Cash and Deposites, which are but small are kept in the Cash Chests in the Registry in the Town Hall under three keys the Mayor and two Senior Aldermen having each one, and in

## —FORT ST. GEORGE, JANUARY 1745-46—

compliance with the Hon<sup>ble</sup> Company they have likewise ordered me to lay before you the Accounts of the Moneys and Securities as they now remain in the said Court which you'll please to receive with this. I have the Honour to be with great respect

HON<sup>BLE</sup> SIR & SIRs

Your most Humble & most Obed<sup>t</sup>. Servant.

The Warehousekeeper acquaints the Board that on weighing the Admiral Vernon's Lead & Copper in the presence of the Officer left here by Cap<sup>t</sup>. Cooke for that purpose there appear the following Deficiencies.

				Θ	qr.	lb.
Lead in Tale	..	..	1 slab	..	3	2 25
Copper	..	..	11 Plates	..	5	3 5

Agreed to mention the said deficiencies to Fort St. David directing the Gentlemen there to give receipts for the whole, or any part of them which may be found on shifting the Ship there & that the Warehousek<sup>r</sup>. endorse the said deficiencies on the Bill of Lading.

Agreed to forward overland to St. David's a dispatch for the Admiral Vernon which is now signed, with a Blank for the Deputy Governour, directing it to be delivered as dated the 31<sup>st</sup>. of this month, as also the Invoice of the hundred seventy four Bales she is to carry of our Goods, including twenty four Bales of Chints and other fine Goods which were not ready when she sailed from hence and which it's therefore agreed to send to her on the Sloop that carries the Officer abovementioned.

The Shresalah Puttee a Country Vessel being about to return to Ganjam agreed to send M<sup>r</sup>. Andrews on her fifty 50 Candies of Copper and some Weights & Scales.

Agreed also to give M<sup>r</sup>. Andrews orders to provide as far as Six thousand 6000 Gunneys of the same sort if procurable & to recommend to him to endeavour to get his Goods cured there.

The Warehousekeeper produces to the Board a Computation of the Sorts & Value of the Goods returned to Calcutta from the Edgebaston, extracted from her Invoice & compared with the Ship account of Bales received on board, with all the attention the present hurry of his Business will permit, which makes it probable that there were returned two hundred and eighteen 218 instead of Two hundred and eight 208 Bales, to the value of near three hundred thousand 300000 Rupees whereby the amount of what she has now on board will not exceed our Hon<sup>ble</sup> Masters limitation of their risques and we believe that there will be so inconsiderable a difference between the Invoice of the Lincoln and the real value of what is now on board the Edgebaston, that though in obedience to their Commands we should be glad to mix the Cargoes of these Ships, yet when they are pleased to consider the additional business it will occasion to shift any part of the Edgebaston's, the short time we have to do it in and the Cavils it may introduce at home on account of the protest she lies under, we flatter ourselves they will not be displeased that we make no alteration therein & it's therefore agreed to continue it in the state it is in at present, to which resolution we are further induced by observing that though the Bay by their Letter to Us of the 6: instant & their Sailing orders to Captain Hereford, seem to consign the Ship & Cargo to Us yet the latter is absolutely consigned to England by her Invoice and Bill of Lading. AGREED to send in the Edgebaston's Packet a Copy of the abovementioned Computation, together with her Invoice, Bill of Lading & Accounts of Packing Stuff & Tonage as we received them from Bengal.

ORDERED that when the last Bales are going off to the Lincoln, the Paymaster and Gunner go on board that Ship and the Edgebaston to survey their Men & Warlike Stores & report to Us whether they find them in a good Condition for Defence.

AGREED that the following Sums be advanced to the Merchants hereunder on accounts of Goods brought in and providing by them Viz<sup>t</sup>.

To Molinga Kistna Seventeen hundred fifty one Pagodas	..	1751	—	—
To Ponapa Chitty, Six hundred	..	600	—	—
To Sunca Vencata Rama & Ambaltaudy, five thousand	..	5000	—	— &

General Letter N<sup>o</sup>. 30 from the Chief and Council of Vizagapatam of the 15<sup>th</sup>. Instant inclosing Triplicates of papers before sent us & received, and advising that the Royal George put in there the 13<sup>th</sup>. to gain intelligence of any Enemy's Shipping to the Northward & that she proceeded that morning for the Bay.

Cap<sup>t</sup>. Blake of the Lincoln delivers in upon Oath his Manifest of his homeward bound Adventure amounting to four thousand four hundred & ninety 4190 Pagodas.

He also pays in one thousand 1000 Pagodas & declares it to be on account of the money taken up by him of the Company at Respondentia for which three Certificates of this date are now signed & delivered him. The Secretary at the same time acquaints the Board that Cap<sup>t</sup>. Hereford tells him he does not manifest any private Trade here or pay in any money for Certificates.

The Warehousekeeper acquaints the Board that on looking again over the Computation he made of the Bales return'd to Calcutta from the Edgebaston, he finds there was a mistake in the valuation of about forty thousand Rupees, which is corrected in that he now delivers in to be put in the place of that he produced the last Consultation. By this indeed it appears that her present Cargo exceeds by about five thousand Pounds, what our Honble Masters are pleased to signify they would chuse to risque, but as it is impossible now to shift any part of her Cargo, & dispatch the Ships in the prescribed time It's agreed to make no alteration therein for the reasons assigned in the General Letter.

—FORT ST. GEORGE, JANUARY 1745-46—

He also reports that the Bengal Copper by the Lincoln comes out short in Tale 11 plates and in Weight <sup>gr. lb.</sup> 7. 3. 1. And her Lead for this place short in weight <sup>gr. lb.</sup> 1. 3. — He has demanded of the Captain to account for them who desires they may be referred to England and he had accordingly endorsed them on the Bills of Lading. He at the same time delivers in to be sent to England the Bill of Lading for the Dolphin's Bengal Copper with a short delivery endorsed on it of one hundred weight and Eleven Pounds <sup>lb.</sup> 1. 11.

The Storekeeper then acquainted the Board that there were wanting of the Lincoln's Stores for Bengal forty nine 49 round shot thirty three 33 Bushels of Coals ; That the Deals & Euffirs were in number right but all cut to pieces & that the Invoice speaks the shot to have been packed in 12 Casks whereas only Eleven were transhipped to the Kent, but that one of them was a double Cask ; And that the Cap<sup>t</sup>. refusing to make them good he has endorsed these deficiencies & Remarks on the Bill of Lading.

The Paymaster & Gunner having been on board the Lincoln and Edgebaston to survey their Men & Warlike Stores deliver in the Lists thereof & report both the Ships to be capable of making a good defence.

General Letter to England to go by the Ships now dispatching read to the last paragraphs of the Supplement & approved & Papers for England signed such as —

An Additional Indent for Woolen Goods for 1747.

Prices Current & the Calculate of Stock remaining with the General Letters to S<sup>t</sup>. Helena.

Two Sets of Bills of Exchange payable to our Hon<sup>ble</sup> Masters & an account of disbursements on the French Prisoners as particulariz'd in the 93, 94 & 95 Paragraphs of the General Letter just now read, delivered in in order to their being forwarded in the Packets.

ORDERED that the General Letter be dated to day & that the Packets be closed as soon as possible & delivered the Captains with their dispatches as dated to morrow.

General Letters read Viz<sup>t</sup>.

N<sup>o</sup>. 35 from M<sup>r</sup>. Hallyburton at Madapollam of the 25 : Ult<sup>o</sup>. acquainting us that he shall deliver over the Factory to M<sup>r</sup>. Banks when the Chay Goods are shipped off at Metchlepatam and inclosing an Indent for Wares & Stores.

N<sup>o</sup>. 36 from the Chief and Council of Anjengo of the 14 : Ult<sup>o</sup>. inclosing Duplicates of their former Letters which they had heard were stopped at Caracal & their account of Disbursements on the Princess Augusta; advising of a French Ship being arrived on that Coast & giving out that they had fitted out six Sail at Mauritius; The Arrival of the Prince of Orange at Bombay from Gombroon & that Angria had taken three out of five Guzzarat Vessels.

N<sup>o</sup>. 37 & 38 both from the President & Council of Fort William; The first a Duplicate of the 11 : Ult<sup>o</sup>. the Original of which is not come to hand, inclosing an account of the 208 Bales, returned to Calcutta from the Edgebaston; The other of the 15 : Ult<sup>o</sup>. inclosing the accounts of Stores, Provisions & Money supplied his Majesty's Ship the Medway's Prize & for the use of the Squadron.

William Monson Import Warehousekeeper pays in Twenty four thousand nine hundred ninety six Pagodas thirteen Fanams & forty Cash as follows.

On his running Account	..	..	9300	—	—	} 24996 13 40
On Account of Silver sold	..	..	15696	13	40	

AGREED that two thousand 2000 Pagodas be advanced Sunca Vencata Rama & Ambaltau dy on acc<sup>t</sup>. of the Investment and to send ten thousand 10000 Pagodas to Fort St. David on the Medway's prize that will sail this Evening or tomorrow for the Southward.

A Country Sloop being to sail for Ingeram in few days it's agreed to send M<sup>r</sup>. Saunders on her such of the Wares and Stores he has wrote for as we can spare.

The President acquaints the Board that our Nabob has received repeated advice of Nizam's having passed the Kistna in his way to this Province and that the Morattas are also on this side that River at which the Country is greatly alarmed. As the Success that is to sail in a day or two for the Bay will probably reach it before the Scarborough and Royal George can be dispatched for England it's agreed to advise our Honble Masters of this Circumstance and also of the Capture of the Charles by the Medway's Prize.

The Sumatra which Ship we were under a necessity of sending to Bengal in October with a Supply of Redwood for the Europe Shipping we then expected might have fallen in there not being yet returned from thence and there being little likelihood that she will be here in time to carry to the Westcoast the Stores which were designed thither by her some months since, the want of which may subject the Gentlemen there to great inconveniencies, it was proposed and judged adviseable to hire the Fort St. George a Ship of three hundred & fifty Tons well fitted & Stored & whose Owners are willing to let her to the Company for that service for two thousand five hundred 2500 Pagodas which being esteemed very reasonable for a Ship of that burthen it's agreed to accept; And the Warehousekeeper & Storekeeper are ordered to send on board her the Wares & Stores they have provided for the Westcoast and to use all possible expedition in forwarding her dispatch thither.

Tremungalom Comrapa attending by appointment was then called in & discoursed concerning the provision of the Fine Goods for the current year he consented to the carrying on that Business; But the Board observing to him that as

—FORT ST. GEORGE, FEBRUARY 1745-46—

the Grain Season had been very favourable & Cotton grown cheaper, we expected & must insist upon an abatement in the last year's prices, He said he could not but allow that the cheapness of Grain & Cotton were favourable Circumstances to found our expectations upon but desired us to consider that besides the difficulty of lowering the prices with the Weavers, the Morattas were expected soon to come again into these parts which would render all advances very precarious that the prices of the Long Cloths & Romalls Suprafine had two years since been reduced to the lowest they could bear without spoiling the Fabrick as some other of the Sortments were the last year & that only such of the others as he pointed to would bear any abatement now.

After some time spent in discussing these matters, he at length agreed to provide the Quantities & at the prices specified in the List entered hereafter and was advanced at his request fifteen thousand 15000 Pagodas to set the Weavers briskly to work.

EDWARD HARRIS. WILLIAM JOHNSON.  
JOHN SAVAGE. EDWARD FOWKE.

Last Consultation read and Signed.

The President then delivered the Secretary to read several Letters addressed to him of the following purport Viz<sup>t</sup>.

—FORT ST. GEORGE, FEBRUARY 1745-46—

A Letter from Cap<sup>t</sup>. John Blake of the Lincoln dated Fort St. David the 6 : instant acquainting the President, that in his passage thither he had met with a Sloop under Moors Colours without a Pass, which, suspecting her to be French, he had taken & left with M<sup>r</sup>. Hinde referring to an inclosed Journal & Examination of the Master for the Grounds of his suspicion and Conduct and desiring That in case she should prove a prize she might be disposed of and her produce remitted to him through the Company's Cash for account of the Owners & Companies of Ships Lincoln and Edgebaston.

A Letter from Joseph Hendrick Calderman the Master of the said Sloop, dated Fort St. David the 7 : Instant giving an account of himself ; The Sloop's Owners ; The Intention of her Voyage & of her being taken by the Lincoln & Edgebaston and by them carried to Fort St. David.

A Translate of a Letter of this day's date from Sied Razy Cawn (A relation of Sujee Cawn late Nabob of Muxidavad who arrived a few Weeks past from the Bay & has since resided in our Town) giving the President an account of his having hired the Sloop at Calcutta to bring up his Family and their Provisions & offering to pay double the value of the Sloop & her Cargo if it should appear that either of them belonged in any wise to the French.

The Copy of the Examination & Journal referred to in Cap<sup>t</sup>. Blake's Letter being also read the President proposed to the Board to consider of the Consequences that such an affair as this might draw after it and how far or in what manner it may become Us to act in or take notice of it, after what our Hon<sup>ble</sup> Masters have been pleased to tell us in their 59 : Paragraph of the 21 : March 1743. In debating this point the Board could not without concern reflect on the Inconveniencies and Difficulties the Hon<sup>ble</sup> Company's Affairs and their Servants abroad may sooner or later be drawn into by prizes taken in India by Virtue of Letters of Marque, though it's hoped the President having an opportunity of discoursing Sied Razy Cawn in person on the present instance may prevent any ill Effects from it, but as to the Question it was unanimously agreed, That the abovementioned paragraph absolutely disqualifies us for judging of the legality of prizes & consequently restrains Us from taking any Cognizance of this matter.

ORDERED that the above recited Letters & Examination be copied after this Consultation for the inspection of our Honourable Masters ; The Owners of the Lincoln & Edgebaston or any others who may think themselves interested in a reference to them.

AGREED to send five thousand 5,000 Pagodas overland to St. David's on Friday next.

The difficulty of disposing of our Silver to supply the Cash being taken into consideration it was proposed & at length agreed to change as far as twenty or thirty Chests of Bullion into Arcot Rupees, the Board being of opinion that we may meet with more opportunities of putting off the Rupees & the President & Warehouse<sup>r</sup>. are desired to negotiate this Business & afterwards to endeavour the Sale of the Rupees in the most advantageous manner they can.

TO THE HONOURABLE NICHOLAS MORSE ESQ<sup>r</sup>.PRESIDENT & GOVERNOUR OF FORT S<sup>t</sup>. GEORGE.

HONBLE SIR

In my way To Fort S<sup>t</sup>. David I met a Sloop under Moors Colours without any Pass and I have several reasons to imagine her French and bound to Pondicherry, I thought it my Duty to carry her into Port for more Satisfactory account than they could give; I shall not trouble you with a repetition in this, as I forward to you Copy of their Examination, as also his Journal &c<sup>t</sup>. Papers by which it's plain they might have been at Fort S<sup>t</sup>. George, had they been bound there As I apprehended she might be an advice Boat looking out for a Fleet, so I stopt to advise with the Commodore, who with all the Captains of the Men of War agree, her being without a Pass authorizes me to make a prize of her and if she had fell in their hands would have sold her for such or if delivered to them would do so now; But as I would have every thing I do, agreeable to the Intention and meaning of my Employers, so I have left her with M<sup>r</sup>. Hinde till he receives advice from you and in case Your Honour shall find her a Prize, I leave it to you to dispose of her for the Owners and Ships Companies of Lincoln and Edgebaston and to remit me the produce in the Company's Cash <sup>Q</sup> next Shipping but if it appears she is not so, and that we have not sufficient matter to make prize of her be pleased to act as you please relating thereto either as to discharge here, or order her to Your Port. I am

HONBLE SIR

The Commodore says thay had advice of two Sloops setting out from Bengal with Provisions.

TO THE HONOURABLE NICHOLAS MORSE ESQ<sup>r</sup>.

HONBLE SIR

I beg leave to inform Your Honour that I have been to Bengal lately from Madrass on a Brigg (Owner) Meerjermantee and after my arrival there one Omichund sent for me and asked if I would carry the Sloop called Nancy to Madrass and I asked Omichund who the Vessel belonged to, who told me it belonged to Govinda Ramittree, Gemedar of Calcutta And that a Moo[r]man who is now at Madrass freighted the Vessel to carry his Family down to him after which one M<sup>r</sup>. Jackson there and Govinda Ramittree sent for me and told me that I might go with all Safety accordingly I Sailed from thence and in my way to Madrass I met with a Gale of Wind that damaged my Mast & Sails so that I was obliged to make Land as fast as I could, and I arrived to the Northward of Sadrass at 4 in the morning where I met the 2 Indiamen the Lincoln and Edgebaston which took me and brought me here, I therefore beg your Honour will take an Information of this & do as your Honour will think proper. AGREED to send five thousand 5000 Pagodas overland to St. David's to morrow.

As we suppose the Gentlemen at St. David's will about this time receive their Merchants proposals for carrying on the Business of the Investment for the running year it's agreed to signify to them our Satisfaction at Andeapah's performances the last, & to remind them that as Cotton & Grain are both become more plenty & they have but few Competitors at the Weaving Towns we hope those Circumstances may be advantageously improved to the lowering the prices and securing a Good and Substantial Manufacture.

AGREED also at this early Season to intimate to the Deputy Governour and Council our Apprehensions of not being in A Capacity, unless the Europe Ships arrive early to supply them so fully with Money as we should be glad to do, and that in such case we believe it would be most acceptable in England that they give their chief attention to the providing the Salem & Worriarpollam Cloths & the Salampores Ord<sup>r</sup>.

The Works to the Westward being brought on pretty near to the School, The Old Paddy Godown & the other adjacent Buildings which it's time to begin to pull down; It's agreed that Mess<sup>rs</sup>. Eyre & Harris assisted by M<sup>r</sup>. Smith prepare a Calculate of what the Bricks & Timber Work of the School may produce to assist the Board in judging what Compensation to make for it.

Mr. Smith being sent for & attending the Board ordered to be read to him, what the Gentlemen at St. David's write in their Letter of the 13 : Instant about thickening the Parapets & making their Cloth Godown Bomb proof, as also the report of the Fortifications referred to in the said Letter which last being then delivered to Mr. Smith he was desired to give the Board his opinion concerning those proposed Works at our next meeting.

Samuel Troutback having lately purchased a Spot of Ground with some terrassed Godowns on it in James Street directly fronting the Entrance of the sorting Godown which he is willing to part with again for two hundred Pagodas & the same having been sometimes occupied as Cookroom Offices at other times as Horse Stables both which should they by accident take fire may by their Nearness become dangerous to the Cloth Godowns, it's agreed to purchase them as they are cheap at that price and will be useful in the Services of the Warehouse.

The Gentlemen at Vizagapatam being by the death of Mr. Tornery left greatly in want of somebody to overlook the Buildings they are about and here being one John Seaton who has some knowledge in Fortification & Gunnery, in which last he may also be useful to them at this Juncture, It's agreed to entertain him as Gunner's Mate and Overseer of the Buildings at Vizagapatam at twenty 20 Rupees a month for the first & Fifteen 15 Rupees  $\text{P}$  Month for the latter under which he refuses to serve.

The President acquaints the Board that on the Surgeons here and at St. David's remonstrating to Commodore Barnett the hardship they suffer by being a long time in advance of their own money for Disbursements on the Sick & Wounded people of the Squadron under their Care, the Commodore at his last going from hence, had desired of the President that they might be paid their Arrears quarterly and that in consequence Mr. Nathaniel Barlow Agent for the Sick & Wounded of the Squadron at this place had applied to him for payment of the Arrears due to him on that Account the 14<sup>th</sup>. of this Month, which the President now lays before the Board Amounting to Seven hundred seventeen Pagodas twenty four Fanams 717. 24 & which is now paid and charged to the Squadron.

The President acquaints the Board he has received Information from Arcot that the Governour of Pondicherry had lately wrote a Letter to the Nabob to advise him that the English were making preparations at Fort St. David to attack Pondicherry by Land as Mr. Barnett was to do by Sea ; That it appeared to him the French had some secret View in this to answer some purpose of theirs hereafter ; The better therefore to satisfy the Nabob and to prevent this design taking Effect he proposes to address himself to the Nabob on the Affair agreeable to a Letter now read which is approved of & ordered to be entered.

—FORT ST. GEORGE, MARCH 1745-46—

To ANAWARDEEN CAWN BHAUDER

NABOB OF ARCOI.

Your Excellency will be so good to allow me a Pardon for giving you this trouble, but having been informed that the Governour of Pondicherry has lately represented to your Excellency that the English at Fort St. David had a design to attack the Fort of Pondicherry by Land, which I suppose is done at this time to serve some purpose of theirs or to make us appear to you in a false Light, as Persons that are not inclined to shew a regard to your Commands, when at the same time it will appear we have paid all deference to them, Your Excellency must have known this from Mahophojee Cawn and therefore want no further Evidence that the French some short time past actually marched with a Body of Forces and large Guns with other Implements of War to the Edge of the Fort St. David Bounds, but on the Kings Ships appearing off their Port, they thought fit to call in their Troops being also persuaded thereto by Mahophojee Cawn who also wrote to the Deputy Governour of Fort St. David not to resent this Insult of the French, Your Excellency will find his desires were complied with and the Governour of Pondicherry must be left to answer for a conduct in express disobedience to your Commands, The English have a just Sense of the Performance of their Promises and having given them to your Excellency that they would not become the first Aggressors, they would not offer to trifle with so great a Person as your Excellency and therefore they hope your Excellency will suffer no Insinuations of our Enemies to have any weight with you, but that the purity of our Intentions will be distinguished in a favourable manner and that your Regard for Us will be still preserved which will be always esteemed with grateful acknowledgements. May God Almighty long preserve Your Excellency for the benefit of Your Friends and Country.

to the thickning the parapet to six feet, He apprehends that a great part of it is already five feet thick & that the addition of one foot more would not much encrease it's Strength when the difficulty of joining the Old work to the New is considered. The Company's Merchants who were in attendance were then called before the Board in order to discourse with them on the Investment for this year and being told that as the Prices of Grain and Cotton were considerably lower than last year and the value of Cloth at the weaving Towns would probably fall in proportion we must expect they would now endeavour to manage matters with their Gomastahs to obtain an abatement from the Weavers, to which they replied, that it was very true that Cotton was much cheaper than last year, but that hitherto no great quantities of thread had been brought to Market, but that when that Difficulty was removed they were in hopes of being able to procure the Cloth on somewhat easier terms for which they would not fail to use their best endeavours, after which the Underm<sup>d</sup>. The Import Warehousekeeper pays in Eleven thous<sup>d</sup>. 11000 Pagodas on account of Silver sold.

## —FORT ST. GEORGE, APRIL 1746—

Agreed that the following advances be made out of Cash Viz<sup>t</sup>.

5000 Five thousand Pagodas to the Paymaster towards his disbursements for the Month.

2000 Two thousand to Tremungalom Comrapa on acc<sup>t</sup>. of the Investment, To send

5000 Five thousand overland to St. David's this Evening And,

5000 five thousand more on Saturday next.

The President acquaints the Board that a few days since he was advised from the Southward that a Ship (said to be from France) arrived at Caracal and having landed there three Chests of Treasure, an Officer and forty Men went to Tranquebar since which he is informed she was run ashore there and that the Captain of one of our Men of War had taken possession of her. He adds that the S<sup>ta</sup>. Catharina from Macao brings advice that our Hon<sup>ble</sup> Masters Ships Hardwicke and Northampton sailed from Wampo the 24 : December.

Agreed to dispatch a Patamar this Evening to Tellicherry with the above advices to acknowledge their last received Letters & to congratulate M<sup>r</sup>. Dudley on his Succession to that Chiefship.

The President lays before the Board in its Translate now read as entered hereafter a Letter he received two days since from the Nabob in answer to what he wrote his Excellency as copied after Consultation of the 17 : of last Month.

Tremungalom Comrapa & Mylapore Comrapa, the Collectors of the Revenues of Ernawoor and the other three Villages deliver in the Accounts of their produce for the last year ending the 31 : Ult<sup>o</sup>. whereby it appears that though they have yielded more grain this year than last by upwards of four Garce (the said Collectors having delivered into the Warehouse twenty five Garce one hundred fifty six Mercals & Seven Measures of Paddy 25. 156. 7) Yet by the price of Paddy being lower they fall near an hundred Pagodas short of the value of their last year's produce, the said Collectors also pay in Seventy nine Pagodas fourteen Fanams & Seventy five Cash 79. 14. 75 for the ballance due from them as by their account entered hereafter.

The President then telling the Board that offers had been made him of Farming the Revenues of the Villages at Eight hundred 800 Pagodas by the year or at One thousand 1000 Pagodas  $\text{₹}$  Annum if we would lengthen the Term to five years it was debated whether to accept either of these offers or to continue them in the present manner and at length adjudged to be most consistent with our Hon<sup>ble</sup> Masters true Interest to continue to collect that Revenue in the present Method so long as the reasons we have already assigned for it subsist or till a more favourable change in the Circumstances of Affairs in the Country may furnish an opportunity to alter it with advantage.

It falling under consideration whether we should send the Princess Mary on to the Bay or keep her here for a September dispatch to Europe the Board are unanimously of opinion that as we can with the greatest probability depend upon a sufficiency of Bales by that time for at least one Ship and that there may be thereby a large saving of Demorage it will be most agreeable to our Hon<sup>ble</sup> Masters that we load her home from hence; In consequence its agreed to send for her Bengal packet ashore with what else she may have on board for that Presidency both on the Company's and on the private Persons Accounts and an order to Captain Osborne to deliver them is accordingly now Signed.

HON<sup>ble</sup> SIR & SIRs

In answer to the demand made on me by your Secretary of my Reasons for touching at Batavia outward bound, I am to acquaint you, That being abreast of the Cape of Good Hope the 4: August & my Ships Company all then in very good Health, it was determined not to put in there, but to make the best of Our way for India, but by the 5: September when we reckoned Ourselves near the Island of S<sup>t</sup>. Pauls, the Scurvy had confined near forty or Fifty of my People to their Hammocks, and many more began to complain, it being then very late in the year to come on the Coast of Choromandel. I held a Consultation with my Officers on the occasion, wherein it was resolved to be most adviseable for the Safety of the Ship and the Hon<sup>ble</sup> Comp<sup>y</sup>'s Effects to proceed for Java Head, which we reached the 13: October, having at that time Sixty five Men quite incapable of Duty and above twenty more very much affected, I staid there ten days in hopes my People woud recover but being disappointed therein, not being able to procure any Greens, & not having a sufficient quantity of Fresh Provisions to give my People, I found my Self under a necessity of going to Batavia, which I flatter myself will sufficiently justifie me for so doing, both to the Hon<sup>ble</sup> Company My Owners and your Honour & C<sup>t</sup>. I am

HON<sup>ble</sup> SIR & SIRs

## —FORT ST. GEORGE, APRIL 1746—

To M<sup>r</sup>. BONSAK GOVERNOUR OF TRANQUEBAR.

If I could have got your Letter of the 12 N : S : translated sooner, you would have had my answer to it before now.

The Neutrality of your Road I readily allow, I never intended the least Violation of it, And that it was not violated by my Officers is fully proved by your own Confession, You own the French Ship fired two Shot at the King's Frigate when she was going into your Road and steering to Anchor in such a manner as could give no room to suspect any design of attacking the French Ship, but those Shot you say were fired as a Signal a very extraordinary manner of making Signals indeed, and I suppose the several Volleys of small Arms, which she fired while the Frigate was anchoring were also Signals, and not intended to do any harm, I am afraid Sir, it will appear that if you intended to maintain the Neutrality of your Road, you did not take the proper method as the French Captain had put himself under your Protection and could be protected by nothing but my respect for the King of Denmark's Flag, you should Have strictly enjoined him to trust to your Protection and not fire unless he was actually attacked, You should I think have sent an Officer to the Captain of the Frigate to enquire the reason of his coming into the Road and told him not to anchor near that Ship which was under your Protection and therefore you was obliged to protect her as far as you could, had you taken this method the French Ship would not have fired and the Captain of the Frigate would have satisfied you, that he had no orders to attack her and was only directed to observe her motions, Thus Sir, the Neutrality might have been preserved and all that has happened been prevented but you took no such precautions, The French Ship fired at the Frigate as she was steering to Anchor Astern of her, Upon which the Frigate endeavoured to anchor alongside, but the Anchor not falling clear off the Side, She fell upon her Quarter before she could let go her other Anchor, and all this time the French Man continued firing Volleys of Small Arms into the Frigate and one Gun at least was fired at her from the Fort, before she fired a Single Musket, and the Moment the Frigate fired her first Gun, you began to fire at her from all parts, The Second Frigate which was ordered to anchor without, seeing so smart a Fire from the Fort on the first Frigate stood in to succour her, and soon after he had given his Fire Yours and that of the French Ship ceased, The Frigates then let off till the insolence of the French Man in firing into a Small unarmed Boat obliged them to give another before they could take Possession.

Upon the whole Sir it must be plain to all impartial Persons that the English broke not the Neutrality, nor had any Intention to break it, The French began the Hostilities they broke the Neutrality and had you been really Neuter Yourself, You would immediately have fired at the French Ship not at the English who never fired a Gun till called upon by the Law of Nature to do it in their own defence.

I did not write my Letter of the 30<sup>th</sup>. past till I was fully satisfied, I had reason to complain of your partiality and the account sent me by the Captain and Officers of the first Frigate has since been confirmed by two Young Gentlemen of this Ship who were on board the Frigate by accident and no ways concerned in or accountable for what was done, They assure me the Frenchman was firing his Musketry into the Frigate, One or two Shot from the Fort passed between the Frigate's Main and Mizzen Masts and this before she fired even one Musket; That some Shot from the Frigate went on shore is very possible, but that it was not the direction or Intention of the Officers you may believe, as I have assured you they had my Orders to make no return to your Fire but I will not go so far as to say that the Seamen finding your Shot coming thick among them may not have returned some. In short Sir, I continue to think that your partiality or neglecting to take proper precautions for preserving the Neutrality occasioned the French to break it & therefore you alone are accountable for all that has happened who instead of resenting properly the behaviour of the French Captain attempt to justify it by poorly pretending that the Shot fired into the Frigate were not designed to offend, but only meant as Signals, & then unjustly

—FORT ST. GEORGE, APRIL 1746—

endeavouring to fix the breach of the Neutrality on the English, though it's evident they never intended to commit any Hostilities in your Road & you may imagine that if I had been inclined to violent measures, I should have gone to work in another manner.

I am surprized you could think of laying claim to the Ship as a Wreck, You say she was deserted by her Crew, was it because they were afraid of drowning in her, did not the English drive them out of her & take possession immediately; The Ship and all that was taken out of her after she attacked the King's Frigates under Your Cannon, without any sort of Reason is absolutely the property of the Captors; And from you I expect a fair and full account of all that was carried on shore that Night and that the whole as well as the Ship be preserved as English Property to be disposed of as I shall direct. I am

SIR  
Your most Humble Servant  
CURTIS BARNETT.

HARWICH OFF FORT ST. DAVID  
6 : APRIL 1746. O.S.

TO THE HONOURABLE NICHOLAS MORSE ESQ<sup>r</sup>.

PRESIDENT AND GOVERNOUR & C<sup>t</sup>. COUNCIL OF FORT ST. GEORGE

HONBLE SIR & SIRS

As my leaving Calcutta may have already come to your Honour & c<sup>ts</sup>. knowledge & may be represented by my Enemies so as to turn to my Prejudice, I take the Liberty to trouble you with this address to set the affair in a true light, by informing your Honour & c<sup>t</sup>. of it's particulars; having some affairs to transact on this Coast & nothing either for the Compy's advantage or my own to do at Calcutta, I took the resolution of coming this way & accordingly I waited on Mr. Forster the Compy's President there to acquaint him with my design as well as to pay the usual Compliment on such an Occasion, not imagining he could have any objection to my reasonable Proposal but contrary to my expectation he told me, he would not give me his consent, to which I readily answered, Then I would go without it, looking upon Myself absolutely as a Free Man, though as he was pleased to intimate there might be occasion for my going to Patna next Season, I think it proper to mention to your Honour & c<sup>t</sup>. as I then did to him that my coming this way in March could be no obstruction to my going to Patna in July or August next, I now take the liberty to assure your Hon. & c<sup>t</sup>. that I had no view of withdrawing myself from the Honble Compy's Jurisdiction, which would be so apparently contrary to my interest as well as inclination that surely no man can suspect me of it & further to acquaint your Hon. & c<sup>t</sup>. that should the Compy's interest call on me, I am willing to go to Patna or elsewhere to promote as far as my Health & Constitution already far spent in their Service will permit me to do. I am most respectfully

HONBLE SIR & SIRS

FRIDAY  
THE 2<sup>d</sup>.

M<sup>r</sup>. JOHNSON *Sick*.

General Letter N<sup>o</sup>. 85 from the President and Council of Fort William of the 11<sup>th</sup>. March read, advising of Goods and Saltpetre sent us on the Sloop Bombay and that there being large accounts remaining unsettled between our Honble. Masters and Mr. Humffries Cole, the latter had withdrawn himself from Calcutta without the Consent of the President or giving any notice to the Board there, of such his intention and as by his removal from thence in such a precipitate manner, they had reason to apprehend his design was to evade coming to a fair adjustment with our Honble. Masters even when their Orders upon the matter expected by the next Shipping shall arrive, they therefore gave us the advice, That in case Mr Cole should be on this Coast, we might take such Methods as should seem adviseable to procure his return hither as soon as conveniently may be ; Inclosing a Copy of their Order of the 4th March to David Rannie Master of the Tevenepatam not to receive Mr Cole on board his Ship but to deliver him to Capt. Robert Hamilton the bearer of their said order, and also a Copy of the said Rannie's Answer under the 7th March and desiring in case Capt. Rannie should have brought Mr Cole with him that we will in their behalf shew a proper resentment to Captain Rannie for such his breach and Contempt of their orders.

Letter received from Bengall They send us Goods and Saltpetre on the Sloop Bombay and that Mr. Cole had withdrawn himself from thence & desiring that in case he should be on this Coast, that we will take such Measures as may secure his appearance before them and inclosing an order they sent by Capt. Hamilton to Capt. Rannie not to receive him on board his Ship, with his answer thereto, and desiring in case Cap. Rannie should bring him to this Coast, that we will shew a proper resentment in their Behalf for his breach of their Orders.

The Board considering the purport of the said Letter and how it may best become us to act on the occasion it is unanimously AGREED that both our Duty to our Honble. Masters and a proper regard to the Representation of the President and Council of Fort William lay us under a necessity (which we should otherwise gladly avoid) of ordering the Deputy Governour and Council of Fort St. David to secure the person of Mr. Humffries Cole now at their place, till he shall give us proper Security for his personal appearance before the President and Council of Fort William at any time between this and the last day of July and a Letter to St. Davids of that purport is now drawn, Signed and sent away.

The Deputy Governour & Council of Fort St. David ordered to secure the person of Mr. Cole.

David Rannie the Master of the Tevenepatam being sent for in the interim and attending was then called in and being told what the President and Council of Fort William had wrote concerning him, He was asked his reasons for offering such an Insult to the Honourable Company's Authority, in the contempt he had shewn to the orders of the President and Council of Fort William, He assured the Board he was the farthest from designing any such Contempt and urged in his excuse that Mr. Cole was not on board his Ship at the time he received those orders and that the immediate Subordinaev he was under to Mr Cole, (to whom his Ship was consigned and who might

have divested him of his Command) left him no room to comply with the orders of the President and Council of Fort William in denying Mr Cole his Passage on the Ship and would he hoped clear him of the Imputation of having willingly shewn any contempt of either the authority of the President and Council of Calcutta or of the Honourable Company.

Mr Rannie being directed to withdraw it was debated, how far it lay on us to judge of or pass censure on his Conduct and determined, that we shall fully acquit ourselves to the Gentlemen in Bengall in causing Mr Rannie to return to the Bay to answer for his Offence where he committed it and therefore agreed to demand Security of him in Six thousand Rupees for his personal appearance before the President and Council of Calcutta on or before the last day of July next.

Mr Rannie being again called in and acquainted with our Resolution, told the Board he could not readily name any Person whom he could expect to join with him in such a Bond, but that if he was permitted his Liberty to go about Town he hoped soon to procure the Security we demanded, which was granted on his Parole now given, That he will not depart out of the Town without the Presidents leave, He then desired and was granted Permission to lay before us hereafter a State of his Case in writing whereby he hoped the President and Council of Fort William, The Honourable Company and this Board would be convinced that he was under a necessity to act as he had done, as it was no ways in his Power to prevent Mr Cole's coming to the Coast.

The President reads the Cash account for last Month, ballance remaining now compared with the Chest, thirty six thousand Seven hundred Sixty five Current Pagodas and ten Cash 36765. —. 10.

The Import Warehousekeeper pays in ten thousand 10,000 Pagodas on account of Silver sold.

Agreed that three thousand five hundred 3,500 Pagodas be advanced Mr Eyre Paymaster towards the charges of the month and to send five thousand 5,000 Pagodas overland to Saint Davids on Monday next.

The President having been desired by Commodore Barnet to forward the Porto Bello Sloop with the provisions she has on board for the Squadron, it's AGREED to dispatch her to morrow ordering the Master to deliver those Provisions to any of his Majesty's Commanders he may meet with at Fort St. David and cautioning him to pass Pondicherry in the Night if practicable.

AGREED to send on the Success to Ingeram such of the Stores indented for from thence as we can spare.

No offer having been made us for the purchase of any Silver since the arrival of the Princess Mary and as shall be in want of Money to carry on our Business and the Exchange of Silver being now become a very difficult as well as a tedious Affair from the small demand for Rupees either for the Country or Bengall, It was proposed as the only expedient at this time to procure Pagodas and at the same time to prevent the price of Silver falling lower than 15 Dollars for 10 Pagodas to make an offer of 25 Chests to Linga Chittee at that Rate, to pay half in one Month and the Remainder in two and to pay for the same as taken out of the Ware house, and by this means this quantity being in one hand, he may in that time be enabled to dispose of it and turn it into Gold. whereas if we wait longer and take the chance only of selling a part, we may be thereby subjected to disappointment in the want of Cash for the Current Business at the same time that there is not the least likelihood of our obtaining a better price by waiting any longer.

Upon which Linga Chittee being sent for, the above Proposal was made to him who, represented the difficulty of Negotiating the Exchange in time, That all private Silver was sold at trust and delivered immediately on the Sale, that as the Company expect ready Money to be laid down, the loss of Interest would not be made up by any Gain, he could possibly make, However as he was willing and desirous of serving

—FORT ST. GEORGE, MAY 1746—

the Company on the occasion, he only desired that to the amount of three Chests, might be in his hands at one time, and he would in the two Months regularly account for the whole twenty five Chests, which being thought reasonable was agreed to.

Messrs. Eyre, Harris and Smith pursuant to order of the 10th March, deliver in as now read and entered hereafter their report of the Survey of the School House and the adjacent Buildings on the Island with an annexed Estimate of the present Value of the Materials of the former amounting to Pagodas 3867. 16. — without making any allowance for the Loss of Iron work and damage to the Timbers in pulling it down or for the Chunam, Clay, Water and Labour used in putting them together when the School was erected, which being in some Measure to be considered, together with the great advantage of the Brick Materials lying so near to the Works we believe our Honble. Masters will not think we make a bad Bargain for them in allowing 4000 Pagodas for the School which it's now agreed to do and which is near 1000 Pagodas short of what it cost in those, so much cheaper times when it was built.

General Letter No. 88 from the Deputy Governour and Council of Fort St. David of the 5th Instant read, in answer to ours of the 2d, concerning the securing the Person of Mr Cole till he should give the Security we thought ourselves obliged to demand and referring to two enclosed Letters from him, One addressed to themselves, under the same date with the above and entered after it The other a Copy of what is entered on our Consultation of the 21st ulto: acquainting us also with the death of Commodore Barnet on the 29th of last Month and of Mr. Peyton's having in Consequence Hoisted a Broad Pendant which they had Saluted.

The purport of that part of the foregoing Letter respecting Mr Cole being considered as also that it was our intention to make ourselves judges of the matters in dispute between him and the Gentlemen of Calcutta and that only our duty to our Honble. Masters and the Solicitations of the President and Council of Fort William had forced us to give the Orders we did concerning him the Board cannot but be both surprised and concerned that the Gentlemen at St. David's, should not have shewn a more ready Obedience to our Orders, either by taking the Security required of him or by securing his Person till he should give it, but since the Gentlemen at St. Davids have not thought fit to follow those orders and we have done all we could and that our Duty required, We think our Honourable Masters must look on them as answerable for the Consequences of their Neglect.

PRESIDENT AND GOVERNOUR & C<sup>a</sup>. COUNCIL OF FORT ST. GEORGE.

HONBLE. SIR & SIRs

Having received your Orders to get my Ship in readiness to proceed to Fort St. David, I am obliged to represent to your Honour & c<sup>t</sup>. that the Lead, Anchors and Shott you have permitted to continue on board, don't make above 140 Tons and the Ship will want a further weight in her Bottom to enable her to lay it along shoar to the Southward under the Strong Westerly Winds that now blow, I am therefore to request that you will please to order Five or Six hundred Bags of Saltpetre on board to Stiffen the Ship and make her more Sail worthy.

I am  
HONBLE. SIR AND SIRs  
Your most Obedient Humble Servant  
ROBERT OSBORNE.

FORT ST. GEORGE  
12TH MAY 1746.

TO THE HONBLE. NICHOLAS MORSE Esq<sup>r</sup>.

PRESIDENT & GOVERNOUR & C<sup>a</sup>. COUNCIL OF FORT ST. GEORGE.

HONBLE. SIR AND SIRs

As it gives me the greatest Concern imaginable to find that by bringing Humfries Cole Esqr. to Fort St. David, I have incurred the displeasure of the Honourable the President and Council of Bengall, so far as to draw a publick Complaint against me, I humbly beg leave to represent this action with the Circumstances that

—FORT ST. GEORGE, MAY 1746—

attended it, in their true Light, which I presume will not only convince your Honour &c. But likewise the Honourable the President and Council of Bengall, that, it was not in my Power to hinder Mr Cole from going to Fort St. David, and consequently, that I am blameless.

The 5th of last March Mr Cole came aboard of the Tevenapatam at Kedgeree and the next morning went away again.

March the 7th I proceeded on my Voyage and in the Evening anchored off Engellee, here the orders from the Honble. the President &c. were delivered me by Captain Hamilton, to which I hastily answered (for the Captain was urgent to be gone, because of the approaching Night) that as Mr Cole was not aboard their order (to deliver him to Captain Hamilton) could not be complied with.

March the 8th being some Leagues below Engellee Mr Cole came aboard again, and I having considered the matter according to the best of my poor Ability thought myself obliged to receive him for the following Reasons Vizt. When I left Madrass my Sailing orders (delivered to me by Nicholas Morse Esqr. in behalf of the Owners of the Tevenapatam) was to follow all such Orders as I should receive from Humffries Cole Esqr. To whom I was Consigned, so that my State was exactly that of a Servant, But if it should be admitted that no such Mercantile order can come in Competition with an Order from a President and Council and that even an Order from them, for a Servant to disobey his Master, should (hard as it is) be Obeyed, yet still it must be allowed I wanted Power, for as every Man in the Ship knew my Dependance on Mr Cole, he could with a Word have dismissed me from any further Service, and my Needy Officers would have been very glad of such an opportunity to better themselves. Besides this was not the only way Mr Cole had to come to Fort St. David, for if I had refused him, he might have gone aboard the William Captain Lewis who had no orders to the Contrary, was within two Miles of me and bound to the same Ports, or even the Sloop that he came in could have carried him very well; So that it was absolutely out of my power to hinder him, and as the bare attempt would have ruined me, without in the least effecting what the Honourable the President &c. wanted, I hope your Honour &c. as well as the Honourable the President and Council of Bengall will acquit me of anything blame Worthy in this Affair, nor will I trouble your Honour &c. further then Sincerely and Solemnly to declare That, I knew nothing of Mr Coles intent at Calcutta, That I now have and always had the greatest regard for the Honourable the President and Council of Bengall, That not through Contumacy or any Sinister view, But with Integrity and according to the best of my Knowledge I have acted in this matter, That it was my peculiar Misfortune to be situated where I was oblig'd to act in Affairs that I had never been conversant with and Consequently could not well understand and that if there was any fault, it proceeded merely from an Error in judgement, which whether blameable or not, I submit to the Determination of your Honour &cs. And if your Honour &c. will favourably Represent what is here alledged to the Honourable the President and Council of Bengall, I shall esteem it a particular favour done to

HONBLE SIR AND SIRs

Your most Obedient Servant

General Letters from the Deputy Governour and Council of Fort St. David read  
Vizt.

Fort St.  
David  
Money  
arrives there.

No. 91 dated the 12th Instant acknowledging the Receipt of the money sent them the 5th.

No. 92 dated the 13th in reply to what we wrote them the 9th concerning their Disobedience to our Orders respecting Mr Cole, And

Indents for  
Woollen  
Goods and  
Packing  
Stuff.

No. 93 Dated the 15th serving only to advise of Mr Coles coming hither on the Advice Snow and to enclose their Warehousekeepers Indent Per Woollen Goods and Packing Stuff.

Mr Cole being then addressed was told that we had received the Letter he wrote us from St. Davids but purposed not to have taken notice of it unless obliged to it by any remonstrances from the President and Council of Calcutta, which coming to us by the Bombay Sloop had drawn from us the Orders (he must know) we had sent to Fort St. David concerning Him and laid us under a further Necessity (we should gladly have avoided) of insisting on his return to the Bay on the Bombay Sloop that would Sail in a day or two, Mr Cole urged that it would be inconvenient to him to proceed on that Sloop, Upon which the Board abated somewhat as to the Circumstance of time, considering that there were other Conveyances in the Road shortly bound thither and asked him to give us some Security, that he would appear before the President and Council of Bengall by the last day of July next. He repeated what he had before wrote us that neither his Inclination nor Interests led him to think of any thing but returning to the Bay where lay all he has in the world but that, as he was apprehensive of being personally ill used in the Bay and that method would be taken to force him up to Patna whither he was determined not to go, He purposed not to leave this Coast till the arrival of the expected Shipping from Europe. The Board assured Mr Cole it was neither our Inclination or intention to enter into or make ourselves judges of the Merits of the Case between him and the President and Council of Fort William and desired him to consider That the part we acted We were compelled by our Duty to the Honble. Company and by what the Gentlemen of Bengall had wrote us of their apprehensions That he had withdrawn himself from Calcutta to evade coming to a fair account with the Company and that the easiest means we could think of both for himself and us, was his giving us the Security we asked: Mr Cole said that all his Fortune was already in the Possession of the President and Council of Fort William under Disputed Title and being a Stranger on this Coast, he knew not where to apply to get the Security we request'd and therefore had none to give, Upon which withdrawing the Secretary was in a short time sent by the Board to acquaint Mr Cole, That it would be most acceptable to them, That he would make it suit his Conveniency to return to the Bay on one of the first Conveyances, of which there were several in the Road that were shortly bound thither: To which he returned for answer by the Secretary, That he was very desirous to receive his Europe Letters here and purposed not to proceed to the Bay before the arrival of the Europe Ships unless forced to it.

He is ordered  
to be attended  
by a Commis-  
sioned Officer

The Board perceiving by Mr Cole's answer That he was determined not to comply with what they desired or proposed without compulsive measures and Mr Cole having told them it would be inconvenient to him to return on the Bombay Sloop, AGREED and ORDERED that Mr Cole be attended by a Commission Officer till he gives us Security in ten thousand Pounds to render himself to the President and Council of Fort William by the last day of July next.

N<sup>o</sup>. 102 from Mr. Andrews at Ganjam of the 10th Ultimo inclosing his accounts for April and advising of his having made the Nabob his yearly present.

No. 103, from Mr. Saunders at Ingeram of the 17th Ultimo acknowledging the receipt of the money and Stores sent him per Sloop Tryall and Ship Success: Offering reasons why he apprehends it will be difficult to lower the prices of the Cloths without stopping the Investment: requesting Leave to erect a Flag Staff and make the additional Buildings he formerly represented the want of, as they will not both cost above one thousand Pagodas, inclosing his Accounts for April and advising that the Vessel on which he shipped the Timbers was drove back.

N<sup>o</sup>. 104 and 105 both from the Deputy Governour and Council of Fort St. David of the 29th and 30th of last month acknowledging the receipt of the money Supplies sent them the 22d and 23d.

The Ground on which stood a house of Mr. Burton lately pulled down, lying very conveniently for Storehouses or warehouses of which we are often in much [*lacuna*] its AGREED to purchase it on the Honble. Company's Account as it may be had for three hundred 300 Pagodas.

Agreed that twenty one thousand five hundred 21500 Pagodas be advanced the Export Warehousekeeper to pay for Tinn bought for the London and to send five thousand 5000 overland to St. Davids on Saturday next.

—FORT ST. GEORGE, JUNE 1746—

Ravenapah Farmer of the Companys Old Garden pays in one hundred twenty five, 125 Pagodas for Six months rent due the first of last month.

ORDERED that Cardoza Pereira a Topaz who has Serv'd in the Military upwards of fifteen Years and is now uncapable of further duty, be put on the Pensioners Roll.

The President acquaints the Board that Mr. David Creighton who by the death of Capt. Bootle had acted as Chief Mate of [the] London thinking himself prejudiced by Captain Sedgwick's entertaining Mr. Davis as Chief Mate, had been with him in the morning to desire that Captain Sedgwick might give his reasons before the Board for his Superseding him, where upon the President had desired both Captain Sedgwick and Mr. Creighton to be in attendance here and they accordingly waited without.

Captain Sedgwick and Mr. Creighton being called in the latter was asked what he had to offer to the Board when he insisted much on his being fully qualified for the Charge of a Chief Mate, that he had passed his Examination as a Second Mate before he left England and that the putting Mr. Davis over him as it carried reflection on his Capacity might also greatly prejudice him in the Opinion of his Friends in Europe he therefore desired Capt. Sedgwick would declare his reasons to the Board for taking that Step. The Captain thereupon assured the Board that it was not out of the least prejudice or dislike to Mr. Creighton he had proposed the entertaining Mr. Davis for the Voyage to China for that he had more than once before the Supracargoes promised Mr. Creighton that he had no thoughts of putting any one over him in the homeward bound Voyage from China and that he was influenced therein purely by his duty both to the Owners and the Honble. Company which made it incumbent on him to take all necessary precautions for the Safety of the Ship and Cargo he also desired the Board to Consider that since the death of Captain Bootle the Youthfulness and Inexperience of his Under officers had thrown the Charge of the Ship so heavy upon him as to have greatly impaired his health; that Mr. Creighton had acted only as a fourth Mate before this Voyage, that neither he nor any of the other Mates of the Ship had ever been through the Straits of Malacca and what the Consequences might be in case of his (the Captains) death outward bound; Mr Creighton urged much his Sufficiency and his being equal to the Charge upon which Captain Sedgwick among other things put the Question to him whither he had ever been at the Stowing a Ships Hold he confessed he had not.

The Reasons offered by Captain Sedgwick Seeming to the Board of great weight we found no occasion to make any Alteration in the Appointment of Mr Davis and dismissed both the Captain and Mr Creighton recommending to the latter to behave himself as becomes him in his Station as the likeliest Means to entitle him to the favour of the Honble. Company.

General Letters No. 107 and 108 both from the Deputy Governour and Council of Fort St. David read the first dated the 5th Instant acknowledging the receipt of the money Sent them the 29th Ult<sup>o</sup>., the other of the 9th Instant advising of the Treasure and Bales and some Casks of Nails Sent us on the Princess Mary and that the Wheather had prevented their putting more Bales on board and requesting a Supply of Iron in Square Bars with some Scales and weights for Silver.

It was then debated whither as the Men of War were gone from St. Davids we ought to return the Princess Mary thither to bring away what more Bales are lying there and at Length resolved to Send her back as Soon as She can be made ready with a party of fifty Soldiers of this Garrison on board Which we apprehend a Sufficient addition of Force whilst She is taking in the Bales as they have no Ships in Pondicherry Road and our Squadron are gone to thither Station on Zeyloan.

## —FORT ST. GEORGE, JUNE 1746—

Capt. Osborne being thereupon Sent for made acquainted with this our resolution and ordered to get his Ship in readiness with all Expedition to proceed again to St. David's told the Board he has strained his Ship and her Masts and rigging so much in this trip that it will take at least ten or twelve days to put her in to a proper condition for it and if the winds should continue to blow from the same Quarter and So Strong as they did the last trip his Ship might probably Sustain so much first Damage as it might require more time to repair than might be consistent with his dispatch for Europe in Season.

The Board being of opinion that we ought not to expose the dispatch of the Princess Mary for England to any risque of a disappointment it's AGREED to wait Some other opportunity of getting the St. David Bales hither And Captain Osborne was directed to go on with all convenient dispatch in getting his Ship in readiness for her Voyage to England.

A Years Interest becoming due to morrow on our Bond to the president and in few days on Several of our other Bonds Its AGREED that the Said Years Interest on them be paid off as it becomes due On the Pagoda Bonds out of Cash and on the Rupee Bonds out of the Warehouse.

TO THE HONOURABLE NICHOLAS MORSE ESQR.

PRESIDENT AND GOVERNOUR OF FORT ST. GEORGE &CA. COUNCIL.

HONOURABLE SIR AND SIRs

Being called upon by the Export Warehousekeeper to Account for Seven Bags of Salt Petre that are wanting of the number exprest in my Bills of Lading, it lies on me to Represent to your Honour &ca. That before I Left the River I acquainted the President of Fort William (in a Letter equivalent to a Protest) that part of the Saltpetre sent by the Sloop Mary came on board much damaged, and that therefor the Letter of my bills of Lading (Sign'd at Calcutta for Dispatch sake before the Saltpetre was really aboard) must not be insisted on to the Detriment of my Owners or self.

Upon my Arrival here I found that some of those bags that came on board wet, had Wasted so Much that I judg'd it best (in order to prevent disputes of the Sea Gate) to fill them up with others, by which Means three of the Difficient Bags were expended, and The other four were I Acknowledge wasted on board Ship thro the Badness of the Weather that we had for three days after we Left the pilot, But as the Danger of the seas is Expressly excepted in the Bills of Lading I presume the Honourable Company should stand to this Loss and as the Owners of the Sloop Mary Ought to Account for the other three bags, I hope Your Honour &ca. will allow that I have fully comply'd with the tenour of my Bills of Lading and cause the said Bills to be Return'd indorsed to.

HONOURABLE SIR AND SIRs  
Your most Obedient Servant

DAVID RANNIE.
